B. No final plat, or minor subdivision deed, shall be approved by the Land Use

The municipal official designated to administer this provisions of this section is the Zoning Officer. At no time may a municipality hold more than one guarantee or bond with respect to the same item.
- (2) Should a successive developer request a permit update under the State Uniform Construction Code for the purpose of updating the name and address of the owner of property on a construction permit, as a condition of such permit update, the new owner shall provide replacement performance guarantees, safety and stability guarantees and or maintenance guarantees as applicable to the then current stage of development.

C. Safety and stabilization guarantee. The developer shall furnish to the Borough a safety and stabilization guarantee to be available to the Borough for the purpose of returning property that has been disturbed to a safe and stable condition or otherwise implementing measures to protect the public from access to an unsafe or unstable condition in compliance with the provisions of N.J.S.A. 40:55D-53(1)(d) et seq..

- (1) At the developer's option the safety and stabilization guarantee may be provided as a separate guarantee or as a line item in the performance guarantee.
- (2) The amount of the safety and stabilization guarantee shall be as follows; for bonded improvements in an amount not exceeding \$100,000 the guarantee shall be \$5,000. The amount of the safety and stabilization guarantee for a development with bonded improvements exceeding \$100,000 shall be calculated as a percentage of all the bonded improvements, or applicable phase or stage of development, as follows: \$5,000 for the first \$100,000 of bonded improvements plus 2.5% of bonded improvement costs in excess of \$100,000 up to \$1,000,000 plus 1% of bonded improvements costs in excess of \$1,000,000.
- (3) The Borough shall release the safety and stabilization guarantee upon the Municipal Engineer's determination that the development of the project site has reached a point that the improvements installed are adequate to avoid any potential threat to public safety.

D. Failure of Developer. Should the developer fail to complete all or any of ~~if~~ the required improvements in accordance with the performance guarantee(s), the obligor and surety shall be liable thereon to the Borough of Middlesex for the reasonable costs of the improvements not

installed, and upon receipt of the proceeds of the performance guarantee the Borough of Middlesex shall install such improvements. Such completion or correction of the public improvements shall be subject to the public bidding requirements of the "Local Public Contracts Law" N.J.S.A. 40A:11-1 et seq. Should the developer fail to complete the development after disturbance of the site or halt construction for the periods defined in N.J.S.A. 40:55D-53 the Borough shall also collect the safety and stabilization guarantee and shall use those proceeds to take such actions as are reasonable to protect the safety and security of the public from unsafe or unstable conditions in the site.

E. Notice of completed improvements. When all of the required improvements have been completed, the obligor shall notify the governing body in writing, by certified mail and addressed in care of the Municipal-Clerk, of the completion of said improvements and shall send a copy thereof to the Municipal Engineer. There upon, the Municipal Engineer shall inspect all of the improvements and shall file a detailed report, in writing, within 45 days, with the governing body with a copy to the obligor, indicating either, approval, partial approval or rejection of the improvements, with a statement of reasons for any rejection. If partial approval is indicated, the cost of the improvements rejected shall be set forth.

F. The governing body shall, by resolution, either approve, partially approve or reject the improvements on the basis of the report of the Municipal Engineer within 45 days of receipt of such report, and shall notify obligor in writing, by certified mail, of the action of the approving authority with relation thereto. Where partial improvement is granted, the obligor shall be released from all liability pursuant to its performance guarantee, except for that portion adequately sufficient to secure provision of the improvements not yet approved. Failure of the governing body to adopt a resolution within said 65 days of receipt of the report from the Municipal Engineer shall be deemed to constitute approval of the improvements, and the obligor and surety, if any shall be released from all liability pursuant to such performance guarantee.

G. If any portion of the required improvements are rejected, the Borough, may require the obligor to complete such improvements and, upon completion, the same procedure of notification as set forth in this section shall be followed. The obligor shall continue to provide to the Borough performance guarantees of not less than 30% of the cost of installation of all improvements, as set forth in N.J.S.A 40:55D-53 until all improvements are completed. The amount of the safety and security guarantee, if any, shall also be adjusted as provided or in N.J.S.A. 40:55D-53 to provide continuing assurances of public safety during such period.

H. Nothing herein, however, shall be construed to limit the right of the obligor to contest by legal proceedings any determination of the governing body or Municipal Engineer.

I. Construction in phases. Upon completion and approval of a section of improvements, but prior to the acceptance of same by Borough, or the release of any performance guarantee or safety and stabilization guarantee with respect to that phase or portion of the development, the developer shall be required to file a maintenance bond sufficient in amount to guarantee that the completed improvements will be maintained by the developer until completion of improvements in the remaining portions or sections of the subdivision and for a stated period thereafter not to exceed two years from the date of completion of all improvements. The Municipal Engineer shall determine the amount of the maintenance bond, and it shall be approved by the Borough Attorney as to form, sufficiency and execution and shall be approved by the mayor.

J. Maintenance guarantee. As a condition precedent to the issuance of a zoning permit,

the Borough shall require the furnishing of a maintenance guarantee to be posted with the governing body as provided for herein. Upon final acceptance of the improvements by the governing body consistent with the procedures as outlined in this Section, and before the release of the performance guarantee, the developer shall post a maintenance guarantee with the Borough in the amount of 15% of the costs of the installation of the public improvements which are being released. The developer shall also post a maintenance guarantee in an amount not to exceed 15% of the costs of the installation of the following private site improvements; stormwater management basins, inflow and water quality structures within the basins, and the outflow pipes and structures of the stormwater system, if any. Said maintenance guarantee(s) to run for a period of two years after final acceptance of the improvements if such are dedicated to the public, or the date of approval by the Municipal Engineer if private improvements. In the event that other governmental agencies or public utilities automatically will own the utilities to be installed or the improvements are covered by a maintenance guarantee to another governmental agency, no maintenance guarantee shall be required by the municipality for such utilities or improvements. Cash cannot be required as any part of such maintenance guarantee by the Borough, though the developer, at its option, may so provide all or a portion in cash.

K. Inspection fees. The obligor shall reimburse the Borough for reasonable inspection fees paid to the Municipal Engineer for the foregoing inspections of improvements, provided that the Borough may require of the developer a deposit for the inspection fees in the amount, except for extraordinary circumstances, the greater of \$500 or 5% of the cost of bonded improvements subject to a performance guarantee as determined pursuant to this section and N.J.S.A. 40:55D-53(3) (h) et seq. and further, the developer shall deposit escrow fees not exceed 5% of the costs of the private site improvements that are not subject to the performance guarantee, for the cost of their inspection.

(1) if the Borough determines that the amount in escrow for the payment of inspection fees, as calculated pursuant to N.J.S.A. 40:55D-53, is insufficient to cover the costs of additional required inspections, the Borough may require the developer to deposit additional funds in escrow provided the Borough delivers to the developer a written inspection escrow deposit request, signed by the Municipal Engineer which; informs the developer of the need for the additional inspections, details the items undertakings that require inspection, estimates the time required for those inspections and estimates the cost for performing those inspections.

(2) At the option of the developer the inspection fees may be paid in installments as provided for in N.J.S.A. 40:55D-53.

L. Surety. If a developer posts a bond as guarantee, there must be attached to said bond an authority of the surety company empowering the person or persons who executed said bond for the surety company to do so. If the bonding company is not a licensed New Jersey entity, there should also be attached to the bond proof of its authority to do business in New Jersey and a copy of its financial condition. If the principal on the bond is a partnership, corporation, limited liability company or other business entity, there must be attached to the bond a certified copy of a resolution adopted by its Board of Directors, members or partners, as appropriate, authorizing the execution and delivery of said bond. Said bond must also bear the seal of the surety and the principal if a corporation.
